

## ENGINE FLUSH

### PRODUCT DESCRIPTION:

Engine Flush helps restore fuel efficiency, enhance operating performance, and reduce emissions in both gasoline and diesel engines. Its powerful detergent-based formula effectively removes sludge and deposits, helping to lower oil consumption. The formula of Engine Flush is safe for engine components and can be conveniently disposed of along with waste oil.

### APPLICATION:

Engine Flush effectively cleans and flushes the oil circuits of both gasoline and diesel engines. The application of this Engine Flush depends on the level of contamination within the oil system. Not recommended for use in motorcycles equipped with wet clutches.

### FEATURES & BENEFITS:

- Loosens sticky valves and piston rings to minimize blow-by and reduce emissions
- Lowers operating temperatures by removing sludge and deposits
- Helps reduce lifter noise for smoother engine performance
- Safe on common sealing materials and components
- Cost-effective and easy to use

### DIRECTIONS FOR USE:

One 300 ml can is suitable for up to 6 liters of engine oil. Add Engine Flush to the warm motor oil before performing an oil change. After adding the product, let the engine idle for about 10 minutes, then drain the oil and replace the filter. Engine Flush is compatible with all commercially available motor oils.

### DISCLAIMER:

The test data mentioned above is not a definitive specification but serves as an indication and may fluctuate within acceptable production tolerances. Venom retains the right to alter this test data. Any updated information will replace previous versions, so please consult the latest Technical Data Sheet (TDS).

### HEALTH & SAFETY, ENVIRONMENT:

Extended and repeated exposure to oil can lead to skin conditions. Please avoid contact. If you do come into contact with oil, wash the affected area immediately with soap and water. Do not dispose of used oil down drains or into the environment; instead, take it to an authorized used oil collection point.

### HEALTH & SAFETY:

This product is unlikely to pose significant health or safety risks when used properly in the recommended application and with good personal hygiene practices. For more information, please refer to the Safety Data Sheet (SDS), which is available upon request from your local sales office.

### PROTECT THE ENVIRONMENT:

Please take used oil to an authorized collection point and adhere to local regulations. Do not discharge it into drains, soil, or water.

### STORAGE:

We recommend storing all packages in a covered area. If outdoor storage is necessary, drums should be positioned horizontally to prevent water ingress and protect the markings. Products should never be stored above 60°C or exposed to direct sunlight or freezing temperatures.
