

TRANSMISSION TREATMENT

PRODUCT DESCRIPTION:

Transmission Treatment is a specially formulated additive designed to provide enhanced lubrication and protection for automatic transmissions. It can be added to both new transmission fluid and the residual fluid remaining in the torque converter after a drain and refill service. This treatment helps prevent deposit buildup and fluid breakdown, reduces transmission shudder and shifting issues, and keeps seals soft and pliable to prevent leaks. Regular use of this Transmission Treatment ensures smoother performance and helps protect against transmission failure.

APPLICATION:

- Recommended for use in most manual transmissions
- Recommended for use in most automatic transmissions
- Not recommended for CVT transmissions

FEATURES & BENEFITS:

- Reduces wear for longer transmission life
- Keeps the transmission clean and efficient
- Resists fluid oxidation and deposit formation
- Conditions seals and O-rings to prevent leaks
- Maintains proper fluid viscosity under all conditions
- Compatible with most Automatic Transmission Fluid (ATF) types
- Prevents oxidation and acid buildup
- Replenishes essential additives in ATF
- Contains advanced metal conditioner for added protection
- Free from environmentally harmful dyes

DIRECTIONS FOR USE:

- Add the contents of the bottle to the fluid every 10,000 miles or once a year, whichever occurs first.
- Avoid overfilling.

DISCLAIMER:

The test data mentioned above is not a definitive specification but serves as an indication and may fluctuate within acceptable production tolerances. Venom retains the right to alter this test data. Any updated information will replace previous versions, so please consult the latest Technical Data Sheet (TDS).

HEALTH & SAFETY, ENVIRONMENT:

Extended and repeated exposure to oil can lead to skin conditions. Please avoid contact. If you do come into contact with oil, wash the affected area immediately with soap and water. Do not dispose of used oil down drains or into the environment; instead, take it to an authorized used oil collection point.

HEALTH & SAFETY:

This product is unlikely to pose significant health or safety risks when used properly in the recommended application and with good personal hygiene practices. For more information, please refer to the Safety Data Sheet (SDS), which is available upon request from your local sales office.

PROTECT THE ENVIRONMENT:

Please take used oil to an authorized collection point and adhere to local regulations. Do not discharge it into drains, soil, or water.

STORAGE:

We recommend storing all packages in a covered area. If outdoor storage is necessary, drums should be positioned horizontally to prevent water ingress and protect the markings. Products should never be stored above 60°C or exposed to direct sunlight or freezing temperatures.
